## Arc Infrastructure supports the Flying Doctor

Arc Infrastructure is partnering with the Royal Flying Doctor Service WA (RFDS WA), by contributing to the purchase of vital aero medical equipment for their fleet through a \$30,000 donation.

Rebecca Tomkinson, CEO for the RFDS WA, said updating and replacing aero medical equipment is critical to the service so Arc Infrastructure's generous support is greatly appreciated.

"All of our aero medical equipment must pass stringent portability and durability tests before they can be used on board one of our aircraft and Arc Infrastructure's donation will help us purchase perfusor space pumps for a dozen of our fleet," Ms Tomkinson explained.

Perfusor space pumps are small, lightweight units used to deliver precise measures of pain relief and in-flight medication to patients, and can be used as a complex infusion system where the patient may need various infusions at once.

Arc Infrastructure's incoming CEO, Murray Cook, said he was delighted Arc could support the vital work of the RFDS WA, who rely heavily on corporate and community donations to continue their services.

"As an organisation whose employees are spread across regional Western Australia, we understand how essential the RFDS WA services are to those living in these areas of our state," Mr Cook said.

The RFDS WA provides extensive lifesaving aero-medical evacuations and transfers, and offer a range of primary health care services to those who live, work and travel across Western Australia.

The service covers over 2.5 million square kilometres, with five operating facilities located at Broome, Kalgoorlie, Jandakot, Meekatharra and Port Hedland.

## ABOUT ARC INFRASTRUCTURE

Arc Infrastructure is a leading transport infrastructure manager in Western Australia. We currently operate the State's 5,500km freight rail network, connecting people, commodities and ports across the State with the rest of Australia and the world.

Spread across regional Western Australia, our team of 400 employees keeps the rail network operating 24/7. We live local, buy local and are committed to contributing to regional communities.

Previously called Brookfield Rail, we changed our name to Arc Infrastructure in July 2017 to reflect the aspirations for our future to expand our involvement in transport infrastructure assets. We're committed to working with industry, our customers, partners and communities to find new opportunities that will support and strengthen our rail network for the benefit of WA.
