Section Run Times

The information provided here is general in nature, is indicative only and is not to be relied upon as a representation of the operational performance of Arc Infrastructure's network. We strongly encourage contacting Arc Infrastructure directly for the most up-to-date and relevant information.

This report represents the section run times (SRTs) in minutes for each category of axle load applicable as of December 2024. The Standard SRT indicatively represents the default timetable SRT for operation on Arc Infrastructure's network. The Minimum, Average and Maximum SRTs are summations of the individual location links within actual scheduled train paths, do not include required dwell time and cannot be summed further to provide an indicative journey SRT.

	s are summations of the mullidual location tinks within actua
