## Network Safeworking Rules & Procedure Update

### ATTENTION ALL NETWORK USERS

**As a result of continuous improvement we release the following updated Rule and Glossary:**

#### *Rule 6001 Overrun of Limit of Authority*

Section 3.1 and 3.2 have been amended to improve the communications required by both the Network Controller and the Rail Traffic Crew when an Overrun of Limit of Authority (SPAD) occurs.

#### *Glossary*

Amended Alternative Proceed Authority to Alternative Movement Authority throughout and included SPAD to definition of Emergency.

These documents will be release and be affective by Monday 22<sup>nd</sup> August 2022.
