Network Safeworking Rules & Procedure Updates

ATTENTION ALL NETWORK USERS

As a result of continuous improvement Arc Infrastructure will release the following updated Rules and Procedures:

Rule 1004 Track Access Accreditation

Section 6.1 has had the Accreditation Level Table amended with the wording changed to better define the Possession Protection Officer's level of competence.

<i>Possession Protection Officer (PPO)</i>	This level of TAP shows the worker has the Competence of a Protection Officer (PO) along with the additional Competence of PPO, showing the ability to manage multiple worksites within a Local Possession Authority (LPA).	Cat 1
--	---	-------

Rule 2007 Network Communications

Section 2.2 has been amended to the following:

Minor change to the example of the general broadcast for a WoTA when taken over the phone.

Rule 4017 Overdue Occupancies

Section 2 has been amended to align with Rule 2029 Responsibilities of Network Controllers "Where the agreed or expected reporting, Clearance or Section running times are exceeded by an unreasonable amount, the Network Controller must act in accordance with Rule 2029 Responsibilities of Network Controller;"

Work on Track Authority Forms

These forms now include Infield Protection application and removal fields.

These documents will be released in the coming week to the Arc Website and be effective from Monday 01 01 2025
